

Dave's Custom Covers Terms and Conditions:

Order Terms: By placing your order either verbally or in writing, you are accepting and agreeing to the following terms and conditions. To proceed with an order, 50% deposit is required. The balance becomes payable when the cover(s) are ready for delivery.

Cancellation: Orders can be modified or cancelled (with deposit refunded where appropriate) up to the point that materials ordered for the purpose of fulfilling the clients order have been dispatched by the supplier, or in the case of stock materials, once cutting has commenced.

Product limitations: Dave's Custom Covers products are made to the highest standards using the latest endurance fabrics in order to maximise lifespan under normal use. Correct and secure fitting of the aircraft cover(s) is essential. Ensure the cover is properly fitted. Don't allow it to flap or chafe. Dave's Custom Covers cannot be held responsible for damage caused by improper handling and fitting by the user. NB: During extreme wind conditions, removal of covers is advised. Dave's Custom Covers are designed to help protect your aircraft against the weather during static ground use only and do not form part of the aircraft flight equipment under any circumstances. It is permissible to carry a Dave's Custom Cover on board an aircraft in the baggage hold packed into the carry bag provided and properly secured. This is the responsibility of the Pilot in Command.

Two year warranty: Repairs due to normal operation within the guidelines are free for 2 years. Collection and return shipping costs are excluded. In the unlikely event some of the stitching comes undone, you may return the cover for re-stitching at no charge within the warranty period. If the cover suffers accidental damage within the warranty period, it will be repaired at the discretion of Dave's Custom Covers, for the cost of materials and shipping only. Dave's Custom Covers are solely intended for use on the specific aircraft they are purchased for. Use on a different aircraft invalidates the warranty.

Liability: Dave's Custom Covers cannot be held responsible for damage or personal injury arising from the use of Dave's Custom Covers products, goods or services, howsoever caused.

Cleaning: Use a soft brush and running water (no more than standard hose pressure) to clean off bird droppings and dried mud from outer surface. A very dilute pure soap solution can be used on stubborn areas. Don't scrub the surface. Don't use a pressure washer. Never use cleaning solvents. The polyester microfiber lining can be cleaned using a clean sponge or cloth in water with a bit of washing up liquid.

Storage when not in use: Lay or hang cover somewhere out to dry where possible. Do not store cover for long periods, if it is dirty or damp.

These terms and Conditions are subject to change without prior notice.
Your statutory rights are unaffected.
